SHORTENED STATUTORY PERIOD OF RESPONSE	MAIL DATE	DELIVERY MODE
3 MONTHS	04/18/2007	PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

If NO period for reply is specified above, the maximum statutory period will apply and will expire 6 MONTHS from the mailing date of this communication.

Office Action Summary

Application No.

09/900,384

Applicant(s)

KIRANI ET AL

Examiner

Greg Bengzon

Art Unit

2144

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 23 January 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-33 and 46-51 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1-33, 46-51 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
- Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
- Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

This application has been examined. Claims 1-33, 46-51 are pending.

Making Final

Applicant's arguments filed 01/22/2007 have been fully considered but they are not persuasive.

The claim amendments regarding — '*e-mail messages*' — do not overcome the disclosure by the prior art as applied in the prior Office Action, as shown below.

The Examiner is maintaining the rejection(s) using the same grounds for rejection and thus making this action FINAL.

Priority

The claimed inventions have been verified with the parent applications 09/588875 filed 6/6/2000 and 60/203407 filed 06/11/2000. The parent applications do not support the claims' subject matter. Hence, they do not entitle this application to a benefit of earliest filing date.

The effective date of the claims described in this application is July 6, 2001.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-33 and 46-51 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rabe-Hesketh et al. (WO 00/72534 Applicant) and Moussa et al. (US Patent 6742043).

Regarding claims 1 Rabe-Hesketh discloses a method, apparatus and computer program (collectively referred to as "system") for automatically processing e-mail messages containing attachments, the method comprising: receiving a particular e-mail message having a particular attachment; removing the particular attachment from the particular message based on predefined criteria e.g., size of the attachment; inserting a link into the particular e-mail message, said link capable of referencing the particular attachment that has been removed; in response to invocation of the link by the intended recipient, retrieving a copy of the particular attachment that is automatically formatted based on the specified preference (Rabe-Hesketh - Abstract, Page 3, Lines 25-37; Page 3, Line 24-Page 4, Line 25; Page 5, Line 25-Page 6, Line 25; Page 7, Line 20-Page 11, Line 37).

Rabe-Hesketh does not explicitly disclose specifying a preference for formatting attachments and does not explicitly apply predefined criteria in response to a client's capability, e.g., exceeding client capability. Rabe-Hesketh does not disclose detecting an intended recipient's receiving device during a request from the recipient to retrieve the particular e-mail message and thus formatting attachments accordingly.

However, in the same field of endeavor, a teaching that has objective akin to Rabe-Hesketh, Moussa teaches a system for communicated media object to an e-mail recipient, which is capable of modifying object format based on specified user preference (Moussa-Column 16 Lines 25-35). Moussa disclosed detecting an intended recipient's receiving device during a request from the recipient to retrieve the particular e-mail message (Moussa-Column 6 Lines 45-65, Column 16 Lines 25-35) and thus formatting attachments accordingly. (Moussa-Column 16 Lines 35-55)

Thus, it would have been obvious to one of ordinary skill in the art at the time of the invention was made to modify Rabe-Hesketh by including, the teaching of using user preference and thinning message to accommodate client capabilities as taught by Moussa to enable Rabe-Hesketh's system to provide an object in accordance with user requirement and expand the predefined criteria in Rabe-Hesketh. In doing would enable Rabe-Hesketh's system to enhance its ability and flexibility in providing services to the users that have different levels of resources and capabilities. (Moussa-Column 4 Lines 60-65)

Claims 4-6, 18, 46 and 51 are rejected on the same basis as Claim 1.

Regarding claims 2 and 3, Rabe-Hesketh-Moussa discloses, preference is associated with a particular user (Moussa-Column 6 Lines 45-65).

Regarding claims 7, 8 and 27, Rabe-Hesketh-Moussa discloses preference includes specifying that attachments which comprise images be transformed from one file format to another (Moussa-Column 6 Lines 45-65)

Regarding claim 9 and 49, Rabe-Hesketh-Moussa discloses receiving the particular message at an SMTP server (Rabe-Hesketh, Page 4, Lines 21-26).

Regarding claim 10-11, Rabe-Hesketh-Moussa discloses removing attachment could be done at anywhere server including a mail server or at MTA, which employed SMTP protocol. (Rabe-Hesketh, Page 4, Lines 21-26)

Implicitly, Rabe-Hesketh-Moussa has readily taught removing an attachment at SMTP server or by the SMTP server.

Regarding claims 12-14, 47-48, Rabe-Hesketh-Moussa discloses message includes a MIME attachment (Rabe-Hesketh - Page 3, Lines 24-37).

Regarding claims 15 and 33, Rabe-Hesketh-Moussa discloses link comprises a Uniform Resource Locator (URL) referencing said attachment that has been removed (Rabe-Hesketh Page 6, Lines 2-8; Page 12, Lines 18-30).

Regarding claims 16-17, 19-20 and 28, Rabe-Hesketh-Moussa discloses copy of the particular attachment is automatically formatted when a request is received to retrieve the particular attachment (Moussa-Column 6 Lines 45-65)

Regarding claims 21-22, 26,29 , Rabe-Hesketh-Moussa disclosed reformatting resolution, fidelity, color. (Moussa-Column 9 Lines 55-60)

Regarding claims 23, 30, Rabe-Hesketh-Moussa discloses formatted copies of objects within the particular attachment are stored in a network repository (Rabe-Hesketh Fig. 2, storage 27).

Regarding claim 24, Rabe-Hesketh-Moussa discloses network repository is accessible by a Web browser for shared access among multiple participants (Rabe-Hesketh Fig4, 48; Fig 5A-5C).

Regarding claims 25, 31 and 32, Rabe-Hesketh-Moussa discloses attachment includes JPEG-formatted digital images (Moussa-Figure 6).

Regarding claim 50, Rabe-Hesketh-Moussa discloses attachment-processing module operates as a plug-in module to an e-mail server (Rabe-Hesketh - Fig. 2, MTA 2, plug-in 25).

Response to Arguments

Applicant's arguments filed 07/10/2006 have been considered but are not persuasive.

The Applicant presents the following argument(s) [*in italics*]:

Moussa, whether considered separately or in combination with Rabe-Hesketh, fails to disclose or suggest "detecting capabilities of an intended recipient's receiving device, wherein the detecting is performed dynamically, during a request from the intended recipient to retrieve the particular e-mail message" as recited in claim 1.

The Examiner respectfully disagrees with the Applicant. Moussa disclosed *"detecting capabilities of an intended recipient's receiving device, wherein the detecting is performed dynamically, during a request from the intended recipient to retrieve the particular e-mail message"* (Moussa-Column 16 Lines 35-55).

Conclusion

Examiner's Note: Examiner has cited particular columns and line numbers in the references applied to the claims above for the convenience of the applicant. Although the specified citations are representative of the teachings of the art and are applied to specific limitations within the individual claim, other passages and figures may apply as well. It is respectfully requested from the applicant in preparing responses, to fully consider the references in entirety as potentially teaching all or part of the claimed invention, as well as the context of the passage as taught by the prior art or disclosed by the Examiner.

In the case of amending the claimed invention, Applicant is respectfully requested to indicate the portion(s) of the specification which dictate(s) the structure relied on for proper interpretation and also to verify and ascertain the metes and bounds of the claimed invention.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 2144

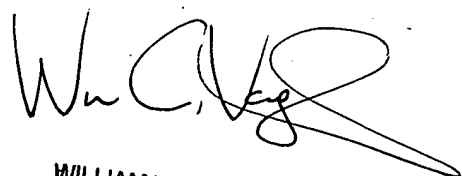

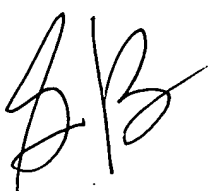

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Greg Bengzon whose telephone number is (571) 272-3944. The examiner can normally be reached on Mon. thru Fri. 8 AM - 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, William Vaughn can be reached on (571)272-3922. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
